The Malta A.I. and Blockchain Summit promises to hit just the right spot for investors and businesses looking to make the most out of their stay in Europe’s blockchain hub. Through unique DLT legislation, business-friendly regulation and an enviable geo-location, the Blockchain Island attracts significant interest to its shores.

As part of Malta Week, the summit promises to offer an appealing balance of networking opportunities and high quality content, giving you the chance to shape one of history’s most important conversations.

In 2019 we’re upping our game. Our spring edition saw industry giants take to the stage, whilst our sold out expo floor proved a huge draw for delegates. This November expect more of everything, from fierce on-stage battles to networking events at all the best venues in Malta.

We’d like to invite you - stakeholders in A.I., Big Data, Blockchain, IoT and Quantum Technology to join us in Malta.

Save the dates. Nov 7th and 8th, all eyes are on Malta for the Malta A.I. & Blockchain Summit.
